HEMBLY by **Litia** – Bringing sustainability to home textiles

Litia is aware of the latest environmental sustainability regulations, and therefore we are introducing new blended yarns with two sustainable fibres – **natural hemp** and **LENZING™ Lyocell**. Using these yarns in end products also raises the awareness of end consumers. These blends have a rustic character combined with a silky, shiny look, and as such they encourage designers' infinite imagination.

NATURAL HEMP

A sustainable and socially responsible plant

- No pesticides or herbicides needed
- Nourishes the soil
- Simple cultivation
- 100% Mechanically harvested and processed
- One of the strongest, most durable natural fibres
- Biodegradable
- Non-GMO

LENZING™ Lyocell

- Small carbon footprint and low impact on the environment
- Sustainability
- Softness
- Breathability

MAKES FABRICS

- Strong and durable
- Naturally UV resistant
- Breathable and absorbent
- Resistant to mold and mildew
 - Antiallergenic
 - Soft to the touch
- Have the potential for a glossy appearance
 - Biodegradable

Applications:

Sofas, Chairs, Curtains, Cushions, Tablecloths, Rugs and carpets, Wall coverings...

For natural and durable textiles with authentic character

HEMBLY by Litia blend: NATURAL HEMP / LENZING™ Lyocell
