Litia apparel a choice of blends

Yarns for knitting and weaving

Fashion is naturally experimental, changing from season to season. However, there is always a stable core of fibres and yarn blends which act as an anchor to which seasonal trends are applied. Litia, with its emphasis on providing a wide choice of yarns from different fibre blends, is very well placed to provide their customers with these yarns whilst also offering the flexibility of yarns from new blends to meet the demands of changing fashion trends. Litia places great emphasis on pushing forward with new yarn blend developments.

Various forms of spinning:

- slub,
 - core,
 - siro-spun,
 - siro-core,
 - crepe,
 - malfile,
 - compact,
 - other
- Single and twisted

Our blends:

- a variety of linen blends
- natural noble fibres in blends with cotton or viscose in finer counts:
 - cashmere, silk, wool
 - other natural fibres like hemp, kapok, bamboo
- cotton / polyamide blends
- blends with TENCEL, Modal, Cupro, L2 Thermo,
- micro fibres like micro Modal, micro polyamide, micro polyester

Performance yarns:

- antibacterial
- thermo regulative
- moisture management
- odour management

Yarns from Litia are sold in ecru form.

Our production capabilities are designed to offer maximum flexibility to meet the specific technical requirements of our clients.

We Are Developing the Future

We are well aware of the complexity of presenting new articles to the market from the early development stages to the successful market penetration. We see ourselves as the point where fibre innovations meet technological innovations. With the input of our in-house knowledge coupled with first class quality systems and our willingness to develop specific characteristics into our yarns we offer new development opportunities to all of our customers.

And We Also Work With You

We are happy to develop yarns to your specific requirements. By intensive communication we can follow your needs and assist you – not only with the production of specific articles, but also by offering our customers all the technical support that is required as well as our support in all certification procedures. The flexibility of our production capabilities is being continuously upgraded so that we can offer favourable delivery terms. Our emphasis on R&D and service means that we are your partner right through to the final article.

Since
1886

Litia - a thin yarn that leads to strong trust

Litia is the brand name for Predilnica Litija - one of the the leading European producers of specialty yarns from natural and synthetic fibres and their blends.

We are a cotton type spinning mill specialised in ring-spun yarns from bi- or more-component blends of different natural and man-made fibers. Our yarns are used for a variety of end-uses in apparel, home and technical textiles, in weaving as well as knitting.

We specialise in product development and we continuously bring to market new innovative blend yarns. We work closely with our partners and we are confident that we can provide the best solutions to your needs.
